

CabinEdge-2[™]

A content loader from the Summit line

The CabinEdge-2 content loader supports network delivery of Inflight Entertainment (IFE) content. The CabinEdge solution is designed to make the loading and management of IFE content simple, straightforward and inexpensive.

The CabinEdge-2 product is a Solid State Drive Content Loader (SSDCL) with a SATA Based Removable SSD Module with up to 7.6TB SSD storage. The product loads digitally stored, encrypted content in the background in an unattended fashion.

Simply installing the SSD and closing the interface door automatically sends the signal to the onboard software to "mount" the drives and begin the process of loading content to the front end server.

The CabinEdge-2 SSDCL is designed using industry leading technology and is suitable for use with existing IFEC systems or for installation of a new system utilizing other components from the Summit line.

The CabinEdge-2 SSDCL has an available desk/rack mounted content loading station that is capable of managing the content loading of up to twelve RSSD modules simultaneously.

Product Features

Processor Intel Atom E3805 dual-core @ 1.33GHz

SDRAM 2GB DDR3

Internal Mass Storage 4 GB eMMC 1x 128 GB (micro-SD Card)

Front Panel I/O 1x Removable SSD module

Content Loading 1x GbE (RJ45)
Serial Console 1x USB 2.0 (micro-USB)

SIM 2x SIM Slots for Cellular Support

USB 1x USB 3.0 (Type A)

Rear Panel I/O LAN

2 x 1Gb Ethernet (EN4165)

Input Power 28VDC (Nominal) and 2x Discrete Input (EN4165)

Cellular RF 2x (SMA)

Cellular Modem 4G/LTE

LED Indicators 3x LEDs for Power, LAN, and Cellular Activity

Input Power 18-32 VDC (≤20W)

Operating System Linux

Mechanical ARINC 836-2-7
Weight 4.0 Lbs Max
