Solutions to Enable
the Powered Aircraft

POWER SOLUTIONS

AIRCRAFT POWER SOLUTIONS

Power your aircraft from airframe to cabin.

As the aircraft industry's electrical power experts, Astronics offers you a complete set of power solutions to improve passenger and crew experiences while providing operational efficiencies. Whatever your program, you'll find a proven, certified solution with Astronics.

Nimble and responsive, our teams work side-by-side with yours to customize innovative solutions to fit your exact program. From power generation and distribution to in-seat and flight deck power, Astronics technologies deliver a safe, convenient, and seamlessly integrated experience.

Count on Astronics for:

EMPOWER® for passengers and crews—the industry's leading and most comprehensive line of device charging solutions, available in multiple configurations and currently flying on 250+ airlines

COREPOWER® power generation, conversion, and distribution—solid-state airframe power solutions, rugged and lightweight for safe and efficient operations

Innovation leadership—patented designs that were first to market and continue to define tomorrow's standards

Linefit and retrofit ready solutions—linefit offerable on the world's major aircraft

Expert solution development—our vertically integrated engineering teams craft technologies into well-designed, certified systems that offer dependable performance

Future-proof systems—with proven, upgradeable technologies

Worldwide support—available for 24/7/365 customer service, support, and maintenance

Innovative. Collaborative. Powered.

Working together with you, we'll bring product solutions, engineering expertise, and manufacturing strength to make your next program a success. We invite you to power it all with the certified innovations of Astronics.

Passenger and Crew Power

Options to fit any program, including 110VAC, USB Type-A and Type-C, wireless charging, and additional formats.

EMPOWER In-Seat Power
IFE Integrated Power
EMPOWER for Flight Deck
Galley, Lavatory, and Other Power

Available for any Aerospace Application

Civil or military, linefit or retrofit.

Commercial Transport
Business Aviation
Rotorcraft
Airlines
Seat Manufacturers
Unmanned Aircraft

COREPOWER® Airframe Power

Advanced technologies to assist with powering tomorrow's aircraft, which include brushless starter generators, electronic circuit breakers, and power conversion units.

Power Generation
Power Conversion
Power Distribution

Astronics—The World's Aircraft Power Partner

Our proven power systems enable global airframe manufacturers, airlines, inflight entertainment and connectivity providers, seat manufacturers, and completion centers to offer reliable power solutions for the comfort, safety, and productivity of passengers and crew.

Customers include:

250+ Airlines	Daher	Panasonic Avionics
Airbus	Dassault	Pilatus
AMAC	Embraer	Recaro
Bell Helicopter	FedEx	Rockwell Collins
Boeing	Gulfstream	STELIA Aerospace
Bombardier	HAECO Cabin Solutions	Textron
Cirrus	HondaJet	Thales
COMAC	Lockheed Martin	Zodiac Aerospace

Certifications

These certifications represent our commitment to quality, safety, environmental standards, and efficiency.

Astronics Corporation (NASDAQ: ATRO) serves the world's aerospace, defense, and other mission critical industries with proven, innovative technology solutions. We work side-by-side with customers, integrating our array of power, connectivity, lighting, structure, interior, and test technologies to solve complex challenges. For 50 years, we've delivered creative, customer-focused solutions with exceptional responsiveness. Today global airframe manufacturers, airlines, military branches, completion centers, and Fortune 500 companies rely on the collaborative spirit and innovation of Astronics.
